The fast desktop
laser that fits your
office needs.

- Fast print speed
- Expandable to grow with your business
- Superior print quality
- Reliable and easy to use
- Networkable
- Standard PCL6 & PS2 emulations

Built to boost your business performance

The new Lexmark E322 monochrome laser printer for personal or small workgroup use has the speed and power you need to stay competitive. At 16 ppm, you get high quality output in record time, while a 133MHz processor and 8MB standard memory print your most complex jobs fast. Small on your desktop but big on productivity, the robust E322 has a maximum monthly duty cycle of 15 000 pages.

Growing needs? The E322 grows with you!

The compact E322 evolves with your business - yet helps drive down your total cost of printing! Options like networkability, expandable memory, a second input drawer and a flash memory card to store fonts, forms and macros turn your E322 into a powerful, economical business printing solution. The E322 also supports a wide variety of business-critical media, including transparencies, envelopes and card stock.

All the right connections

Designed for easy integration into your existing environment, the Lexmark E322 provides full application flexibility with PCL 6, PPDS & PostScript Level 2 emulation standard. For high-speed communications, the E322 features an integrated bi-directional parallel port and a USB port. The network model, E322n, features a built-in Ethernet port, as well as a USB port.

Fast and easy printer management

Lexmark's MarkVision Professional management software lets you manage your networked E322 with maximum efficiency. And high yield, single element cartridges reduce and simplify user intervention, while a toner low indicator enables proactive management of printer supplies.
